

## JST myLogin<sup>®</sup> – "the operator's security"

JST myLogin<sup>®</sup> is a revolutionary solution for log in and log out centrally and quickly from all operator workstations with your company ID. The login/logout process only takes a few moments and, if you want, you can also save your personal layout of the screen contents.

- **Fast:** Login and logout within a few seconds
- **Free-Seating:** The operator can change workplaces and bring the screen contents along
- **Simple:** No software required on your computers
- **Secure:** Collective user & group accounts can still be used
- **Flexible:** Use a JST myLogin<sup>®</sup> user card or your company ID
- **Logbook:** On request, tamper-proof evaluation of login details

**REQUEST A NON-BINDING OFFER**

# JST myLogin<sup>®</sup>

THE OPERATOR'S SECURITY

## Almost unlimited possibilities: the operation of JST myLogin®

The free-seating concept, developed specifically for control rooms, allows automated login and logout processes using a chip card – without passwords. Each employee has his or her own card on which individual authorizations are stored. If the employee leaves their workplace, team members can unlock the computers' keyboard and mouse using their own login.
