

We will professionally modernise your control room with innovative details

Do you want to modernise your control room? Your current control room has some weak spots that need to be fixed? You want to reduce costs and increase efficiency at the same time? In addition, you want to take into account investments that have already been made in your existing control room?

JST offers you well thought-out solutions to modernise your control room that are designed to meet your individual needs. Whether it is scalable monitor walls or ergonomic control room furniture – JST does not just make your control room look better by modernising it. We also provide you with optimal equipment for the future, make your company more efficient and your employees happier.

CONTROL ROOM MODERNISATION OFFER

- Individual planning in line with your control room.
- Protect and continue to develop the investments in your control room.
- Modernised control rooms reduce heat and noise.

- Ergonomic control room furniture provides more comfort.
- Perfect overview and efficient operation after modernisation.

Practical examples: Control room modernisation

JST has already modernised numerous industrial control rooms. Even while maintaining 24/7 continuous operation. We skilfully demonstrate our strengths when it comes to industrial safety requirements, decoupled network structures and the highest demands on the operating concept! You are sure to find an example project among our reference reports on modernised control rooms that meets virtually all of your requirements for a new control room.

We will be happy to put you in touch with the appropriate contact person.

Most modern measuring station for PCK refinery

PCK Raffinerie GmbH in Schwedt/Oder is one of the top companies in Brandenburg and the most important company in the Uckermark. Around 12 million tonnes of crude oil are processed into petroleum and petrochemical products in Schwedt every year. The main products are diesel, petrol, kerosene, liquefied petroleum gas, heating oils and bitumen. PCK was one of the first refineries in Germany to use biofuels and is itself a major producer of high-quality biofuel components.

GO TO PROJECT

"Compared to the satellite measuring stations and also to the old central measuring station, we have been able to improve in every aspect, be it acoustics, lighting, air conditioning, ergonomics or user-friendliness".

Chief Divisional Engineer for Processing (PCK) / Divisional Engineer for Maintenance Service and Project Coordinator (PCK) / Managing Director (JST)

Modernised control room as the centerpiece of the MVA - waste recovery plant

All operating and emissions data are collected by them, they check that the limit values are never exceeded, thus guaranteeing the highest safety standards: The operators in the new control room of Müllverwertungsanlage Bonn GmbH (MVA), a subsidiary of Stadtwerke Bonn, are responsible for monitoring all data and functions at the core of the plant. This important task is supported by products from Jungmann Systemtechnik – JST.

"Things are going great. The system has been very well received by colleagues."

Frank Nachtsheim

Plant Manager of MVA Bonn

Production control room with completely new equipment

The monitoring of around 2,000 computer systems is the focus of the employees at Audi's so-called "MMS" control room in Ingolstadt. MMS – that stands for Manufacturing Management System. This involves continuous testing of all the steps required to produce the various models. The new control room was equipped by the control room specialists from Jungmann Systemtechnik.

JST product overview: Think of everything!

Components for the modernisation of control rooms

Analysis and planning of your control room

Are you planning changes in your control room? Or would you like to breathe some fresh air into your control room? Then make use of the proven [planning packages](#) or the free [online analysis](#) from JST. Our experts will support you in accordance with [BAUA: Study](#) and all important standards and guidelines.

[More about the free analysis](#)

Large-display technology – react faster!

Proactively present important information to the right people – before an incident can have a major impact. With scalable large display walls based on LCD displays and Cube technology, we are sure to find the right large-format system for your 24/7 operation!

More about JST large-display technology

myGUI® – User interface for large-format system, workplace & infrastructure

The intuitive myGUI® user interface in the 3D layout of your control room offers maximum operating convenience for your MultiConsoling® system. With just one click you can operate workstations, monitor walls and infrastructure – always absolutely safe and excellent in stressful situations.

[More about myGUI®](#)

MultiConsoling® – The Control center control room

MultiConsoling® is the high-availability control center for connecting all of the signals from your systems to the monitors at the operator's workstation and on the monitor walls. Transmission takes place in real time and does not require any software on your computers.

[More about MultiConsoling®](#)

Control room furniture: ergonomic operator consoles, Recaro operator's chair, AllMedia Conference System

You can get furniture and technology from a single source at JST. The highly stable Stratos operator consoles, with height adjustment and suitable surrounding furniture, form an ergonomic base for your control room.

[More about control room furniture](#)

Large-screen control system with graphic controller

With the IP-based graphic controller you can get your monitor wall going. The graphic controller records all video signals over the IP network simultaneously and spreads them out at any position and in any scale on the large display wall.

[More about graphic controllers](#)

PixelDetection® – the operator's eye

Shorten your reaction times! With PixelDetection®, you will receive the right alarm at exactly the right moment and always be able to see an overview. Proven for many years and repeatedly awarded, PixelDetection® is also known as the “artificial eye of the operator”.

[More about PixelDetection®](#)

JST myLogin[®] – the operator's login

JST myLogin[®] is a revolutionary solution for logging on and off centrally and quickly from all operator workstations with your company ID. The login/logout process only takes a few moments. If you want, you can also save your personal layout of the screen contents.

[More about myLogin[®]](#)

CockpitView – the operator’s dashboard

Create dashboards with content from different computers on different networks! CockpitView offers you the perfect overview of your most important applications at a glance. With CockpitView you can stay in control and reduce monitors at the workplace or even the large-format system.

[More about CockpitView](#)

Automation for Videowalls and operator workstations

With the JST CommandBox, you can monitor circuits, relays, audio signals, and much more, and have them automatically switched on at defined workstations or on the monitor wall when critical values are detected. The range of applications is almost unlimited!

[More about ControlRoom Automation](#)

ControlRoom Remote: Connection of distributed systems and locations

The optional remote interface of JST Systems allows you to visualise and operate remote computers and entire control rooms. Even complex emergency scenarios for backup control rooms are feasible!

[More about ControlRoom Remote](#)

Computer relocation and PC remote control

By relocating computers from the control room to the technical room, you can reduce the thermal load and create more legroom for your employees. Additional advantages are the central administration of the computers as well as the physical access protection in the secured technical room.

[More about computer relocation](#)

Optional service and maintenance packages

To ensure that your control room stays as available as you need it to be, we offer preventative maintenance packages in various scopes and forms. You will receive customised solutions that will support your market and competitive success.
