

Visit the control room simulator **virtually** – get advice as if you were live on site.

All you need is a **computer with Internet access** and, if necessary, a telephone for voice transmission. Also be used optimally for meetings with employees at decentralized locations.

✓ Short decision finding

✓ No travel time

✓ No costs

✓ No risk of contagion

Thanks to state-of-the-art camera technology, we will advise you live from the control room simulator. You and your team experience an online tour through our control room simulator with our experts - also in parallel from variable locations, in German or English.
